Production handoff: maximum message width 600 px; single column; readable text when images are blocked.
Font fallbacks and plain-text alternative belong to implementation; email-client rendering is not certified here.
Authentication emails: no tracking, no financial details, no password or live token in previews.
Use a deployment-approved sender and HTTPS destination; no invented support address or production domain.

Cuenora / Email verification / Desktop

Subject: Verify your email address — Cuenora

Preview: Confirm your email address to continue setting up Cuenora.

Cuenora

Email verification

Verify your email address.

Confirm that this email address belongs to you to continue setting up your account.

You will need to sign in to the same Cuenora account before confirming, including on another device.

Continue to verification

Valid for 24 hours

This link expires 24 hours after it was issued and can be used once. Opening it does not verify your email; you will confirm in Cuenora.

If you did not create a Cuenora account or request this email, you can ignore it. Do not share this link.

If the button does not work, copy and paste this link into your browser:

{{verification_url}}

You received this email because email verification was requested for your Cuenora account.
