A clearer shade of blue.

An initial palette for calm, precise financial information. Contrast belongs to a pair — never to a color alone.

ONE REFINEMENT · 500: #266BD9 → #2466D1
On 50: 4.38:1 → 4.70:1. On white: 5.39:1. All other supplied hex values are unchanged.

Shade	Hex / swatch	Recommended role	White text	950 text	Use on swatch
50	#E9F0FB	Page tint	1.15:1 FAIL	17.21:1 PASS	950 text
100	#C2D5F4	Subtle surface	1.49:1 FAIL	13.26:1 PASS	950 text
200	#9BBBED	Selected surface	1.96:1 FAIL	10.07:1 PASS	950 text
300	#74A0E7	Dark-mode accent	2.65:1 FAIL	7.44:1 PASS	950 text
400	#4D85E0	Dark-mode link	3.65:1 FAIL	5.40:1 PASS	950 text
500	#2466D1	Primary action	5.39:1 PASS	3.66:1 FAIL	White text
600	#1F57B2	Link on 50 / 100	6.85:1 PASS	2.88:1 FAIL	White text
700	#18448B	Secondary text	9.38:1 PASS	2.10:1 FAIL	White text
800	#143770	Strong emphasis	11.60:1 PASS	1.70:1 FAIL	White text
900	#0B1E3D	Headings / dark bg	16.57:1 PASS	1.19:1 FAIL	White text
950	#040B16	Primary ink / dark bg	19.73:1 PASS	1.00:1 FAIL	White text

PASS / FAIL = WCAG AA normal text (≥ 4.5:1), calculated before rounding.
White = #FFFFFF; 950 = #040B16. Solid colors at full opacity only.

LIGHT

900 on 50
14.46:1

ACTION

White on 500
5.39:1

DARK

50 on 900
14.46:1

Use 600 for links on 50 or 100; underline links. Essential icons and control boundaries need ≥ 3:1 against adjacent colors. Never encode income, expense or status by color alone. Components and semantic states belong to P01.10.

WCAG 2.2 · SC 1.4.3 / 1.4.11 · sRGB relative luminance · 25 OCT 2026
Initial exploration, not a full-interface accessibility certification.

Editorial warmth.
Every figure in its place.

Bodoni Moda + IBM Plex Mono
Two open-source families. Display character above; clear, aligned information below.

01 / DISPLAY

Bodoni Moda

Aa Bb Cc
Å Ä Ö · É Ñ

A Didone-style alternative, not a Didot clone. High stroke contrast and fine serifs bring an editorial feel.

Use at 32 px and above, weight 500–600. Reserve for short titles. Not for small labels, tables or critical amounts.

02 / DATA + SHORT COPY

IBM Plex Mono

00 1Il 5S 8B
0123456789 – + % € $

Equal-width characters align financial columns. Keep currency labels explicit and amounts right-aligned.

Use at 16 px and above for UI copy, weight 400–500. Wider than a proportional sans: allow wrapping and never squeeze labels.

Role	Family / weight	Size / leading	Example
Display	Bodoni Moda 500	48–64 / 1.15	Your money, clearly.
Screen heading	Bodoni Moda 500–600	32 / 1.25	Recorded balances
Short UI copy	IBM Plex Mono 400	16 / 1.5	Planned payments do not change your balance.
Amount	IBM Plex Mono 500	20–32 / 1.3	SEK 12,450.00
Control label	IBM Plex Mono 500	16 / 1.5	Review transaction

LIGHT / 900 ON 50

Recorded balances

SEK 12,450.00
EUR 780.50
USD 245.00

Each currency stays separate.
Planned income is not recorded income.

DARK / 50 ON 900

Recorded balances

SEK 12,450.00
EUR 780.50
USD 245.00

Each currency stays separate.
Planned income is not recorded income.

READABILITY CHECKLIST
Keep display serifs large and dark. Support native text scaling and wrapping. Check 0/O, 1/I/l, accents and currency glyphs on target devices. Do not truncate amounts. These static specimens do not verify screen readers or dynamic type.

LICENSING / Both families: SIL Open Font License 1.1. Preserve each license and copyright notice when bundling fonts. Cuenora’s MIT license does not replace the font licenses. Linotype Didot is commercially licensed and is not included.

Initial direction, not final component tokens. P01.10 owns full UI states and native sizing validation. All figures here are synthetic. Sources and contrast calculations: docs/product/color-and-typography.md
